

Free AutoCAD and Revit Training to Qualified Small Businesses

Through the Louisiana Department of Labor Small Business Employee Training Program (SBET).

If your company has 50 or fewer employees and has been in business for 3 or more years, you may be eligible for a 100% reimbursement through the Louisiana Small Business Employee Training Program.

CADtech Seminars, LLC is a Louisiana based company that has been teaching AutoCAD to AEC firms through both on-site and nationwide seminars for the past 12 years. While we still offer training nationwide, we are expanding our local training to include the Louisiana Small Business Employee Training Program.

What is SBET and how does it work?

The Small Business Employee Training Program (SBET) is designed to benefit business and industry by assisting in the skill development of existing employees through individual, standardized (off-the-shelf) training. *Employers are reimbursed for tuition, required textbooks, and manuals once the training has been completed and proper documentation has been submitted to the Louisiana Department of Labor (LDOL).*

Why use CADtech Seminars?

The advantage of using CADtech Seminars for on-site training is that our instructors have many years of real-world experience using AutoCAD and related design software. The trainers understand the needs of AEC and design firms and can use examples that relate to projects you have in your office. CADtech Seminars is an Autodesk Authorized Publisher and our company's mission is to teach. We are not dealers or salesman for any company, so you will receive non-biased information and training.

What AutoCAD Trainings do you offer?

We provide 2 types of AutoCAD training: On-site training & classroom style training. We have several AutoCAD and AutoCAD related courses available at this time. These courses include AutoCAD 2006, 2007, 2008, 2009 Updates; AutoCAD Fundamentals, AutoCAD Architecture, Revit, Electrical, and Mechanical Systems.

Training Courses

AutoCAD & AutoCAD LT - Update Classes

Update to AutoCAD 2009 from 2008/2007

Update to AutoCAD 2008 from 2007/2006

Update to AutoCAD 2007 from 2006/2005

AutoCAD Fundamentals

AutoCAD 2006, 2007, 2008, 2009

AutoCAD Advanced

AutoCAD 2006, 2007, 2008, 2009

(Continued on next page)

Training Courses (Cont'd)

Maximizing AutoCAD

The best of AutoCAD tools, tips and techniques.

AutoCAD 2009/2008 3D Drawing & Modeling

AutoCAD Plotting & Sheet Sets

Architecture 07/08/09 Fundamentals

Architecture 07/08/09 Advanced

AutoCAD Electrical 2008 Fundamentals

Revit Architecture Fundamentals

Revit Architecture Intermediate

Revit Architecture Advanced

Go to www.autocadtraining.com/free for detailed descriptions of each course.

Dates and Availability...

We are currently filling our calendar for Spring and Summer 2008 training sessions.

Please review the above training courses and call or e-mail us if you have questions or would like to discuss specific topics and availability. Our number is 985-674-0234 and the e-mail is training@cadtechseminars.com.

How do I apply?

First, contact us for available training dates and choose a course or courses for training. (Detailed course descriptions are on our website at www.autocadtraining.com/free.)

Second, fill out the State's SBET training application.

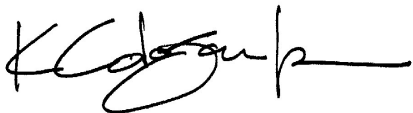

The application is a simple online questionnaire. No red tape. If you have questions or need assistance with the application feel free to call us at 985-674-0234. To learn more about the SBET free training program, go to the state's website at www.ldol.state.la.us/ or, you can go directly to our website at www.autocadtraining.com/free.

IMPORTANT NOTE – In order to be reimbursed for the training, the application must be submitted and approved prior to the training taking place. The state requests that the application be submitted 30 days prior to the scheduled day of training.

For more information on requirements, please see our website at www.autocadtraining.com/free.

I look forward to hearing from you soon.

Sincerely,

Ken Colgan
